MedSupport[®] eMAR and ePoint of Care

Your eMAR solution for Intellectual Disabilities, Assisted Living Facilities, Behavioral Health, Skilled Nursing Facilities, Memory Centers, Home Health, Hospice Care and Correctional Healthcare

caraSolva
Community Care | eHealth Records

Why is Cloud Technology Cost Effective?

No need for expensive hardware or licensing. MedSupport is offered as a monthly subscription. All updates are free of charge.

We offer you the highest quality product at the best value on the market.

- No buying or maintaining new technology
- Security and data back-up is outsourced
- Scalable

Pharmacy Interface

With the optional pharmacy interface you also receive:

- Auto-scheduling of medications
- Bring new clients into MedSupport directly from the pharmacy
- Pharmacy label matches the MAR
- Instant pharmacy notification if facility adds, edits or deletes medications

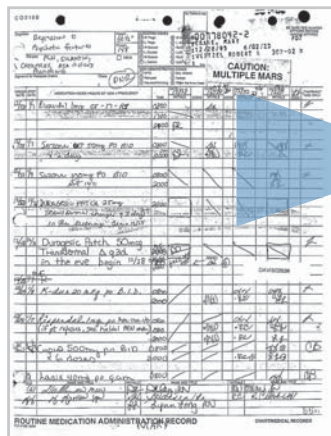

CaraSolva's MedSupport module includes the main intelligence that drives and automates nursing and caregiver functions. These engines auto-schedule medication and events such as vitals, treatments, exercises and tasks, run reports, schedule calendar functions and manage customized alerts.

What you should expect:

- Increased Workflow Efficiencies - your MARs always stay current with MedSupport's pharmacy interface
- Reduction in Med Errors - prompts and alerts from MedSupport facilitate accuracy
- Enhanced Regulatory Compliance - management is alerted by text or email when medication or care events are completed early, late or not given
- Digital Record Keeping - provides easy-to-access history for audits and collaboration with stakeholders
- Data at your Fingertips - MedSupport provides MARs, TARs, Face Sheets, Nurses Notes, Physician Order Forms, PRNs, Med Errors documentation and more
- Easy to use interface improves staff performance and work satisfaction

Use on Desktop, Laptop, Tablet or Smart Phone

Alerts add Safety

Text or email alerts are sent within minutes of the time tolerances set in the application allowing nurses to respond quickly to emergencies or critical issues.

Rapid Implementation Rapid Return on Investment

"Imagine! has saved more than \$130,000 annually by using MedSupport, or put another way, for every dollar spent on MedSupport, Imagine! has saved \$15.50. Even better, these cost savings occurred without a corresponding drop in services and has dramatically reduced medication errors, particularly errors of omission."

Imagine!, Lafayette, CO
